EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Schneider on Tuesday February 2, 2005.

The application has been amended as follows:

On page 6 of the specification, paragraph 14, line 7, change "spindle 7" to, --spindle 1--.

2. The following is an examiner's statement of reasons for allowance: machining two workpieces and/or machining a workpiece and stopping when an out of roundness exists, calculating a transfer constant representing influence of a total deflection through comparing sensor signals of displacement of spindle by an evaluation unit, recording feeding positions and using these information, e.g., true total deflection for calculating different parameters of the subsequent workpieces places the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Prior art made of record and not relied upon are considered pertinent to applicant's disclosure. Edie et al., Kamamura et al., Nakasuji et al., Hahn and Moore are cited to show related inventions.
